

# HIREN GONDHIYA

## FULL STACK DEVELOPER

### / ABOUT ME

I'm currently transitioning into Full Stack Web Development from SharePoint development. I have a history of solving problems logically and creatively that lead to successful project outcomes. I have a good knowledge of web application development using JavaScript, MERN Stack, Ruby, and Ruby on Rails. In my role as SharePoint developer, I have used Microsoft .Net Technologies, HTML, CSS, and jQuery. I have worked in Australia and many countries in Europe and India, which have helped me to hone my communication, interpersonal, problem solving, and time management skills. I am very much excited and motivated to pursue the new technology path that I have chosen.
